Author	Title (very long titles are truncated)	Start page
Abdul Kohar, Umar Haiyat	The Effectiveness of Integrating Geometer's Sketchpad Software in Phase-Based Geometric	335
Abdullah, Abdul Halim	The Effectiveness of Integrating Geometer's Sketchpad Software in Phase-Based Geometric	335
Abed, Hamza	A Gamification Approach For Serious Games	551
Abidin, Mardhiyana	Using Maths Model Method in Solving Pre Algebraic Problems among Year Five Students	222
Abu, Mohd Salleh	The Effectiveness of Integrating Geometer's Sketchpad Software in Phase-Based Geometric	335
Akram, Shoaib	Complete Flipping of a Large Advanced Analytical Course: Engaging Students as Partners	99
Albartus, Nils	Teaching Hardware Reverse Engineering: Educational Guidelines and Practical Insights	438
Aldawood, Hussain Ali	Educating and Raising Awareness on Cyber Security Social Engineering: A Literature Review	62
Alves, Gustavo	PILAR: A Federation of VISIR Remote Laboratory Systems for Educational Open Activities	134
Ando, Kimihiko	Evaluation of Automatic Collaborative Learning Process Coding Using Deep Learning Methods	251
Auer, Michael	PILAR: A Federation of VISIR Remote Laboratory Systems for Educational Open Activities	134
Austin, Clayton	Developing Virtual Reality Open Educational Resources in a Sino-Foreign Higher Education	416
Austreng, Kolbjørn	Enhancing Teaching Methods on Embedded Systems with Project-Based Learning	169
Baizan, Pablo	PILAR: A Federation of VISIR Remote Laboratory Systems for Educational Open Activities	134
Becker, Steffen	Teaching Hardware Reverse Engineering: Educational Guidelines and Practical Insights	438
Belski, Iouri	Are We Fit to Graduate Creative Professionals?	365
Belski, Regina	Are We Fit to Graduate Creative Professionals?	365
Ben Amar, Chokri	A Gamification Approach For Serious Games	551
Biglari-Abhari, Morteza	Exploring the Impact of In-Class Writing Exercises in an Engineering Course	342
Billinghurst, Mark	The Potential of Augmented Reality for Computer Science Education	350
Binti Ismail, Zaleha	Using Maths Model Method in Solving Pre Algebraic Problems among Year Five Students	222
Binti Ismail, Zaleha	Framework of Integrating Algebraic Thinking in Problem-Based Learning via Online Environment for	372
Binti Ismail, Zaleha	Relationship between Teachers' Self-Efficacy and Instructional Strategies Applied among Secondary	454
Birt, James	Framework to Enhance Teaching and Learning in System Analysis and Unified Modelling Language	91
Blazquez, Manuel	Arduino as an Educational Tool to Introduce Robotics	1
Blazquez, Manuel	PILAR: A Federation of VISIR Remote Laboratory Systems for Educational Open Activities	134
Blumenstein, Marion	Exploring the Impact of In-Class Writing Exercises in an Engineering Course	342
Branke, Marcus	The Contribution of Learning, Teaching and Assessment Activities to the Development of 21st	316
Cai, Su	Design and Implementation of an Augmented Reality Application with an English Learning Lesson	494
Cain, Andrew	SplashKit: A Development Framework for Motivating and Engaging Students in Introductory	40
Carro, German	Arduino as an Educational Tool to Introduce Robotics	1

# 2018 IEEE International Conference on Teaching, Assessment and Learning for Engineering (TALE)

IEEE catalog: CFP18TAL-ART ISBN: 978-1-5386-6522-0
